Package content

- Device
- USB cable
- Earphone
- Ejection pin
- USB power adapter
- Quick start guide

USB Connector (USB Type-C)

Use the USB connector to transfer data between mobile devices.

Micro USB Connector

Your device is compatible with USB Type-C. If you want to use a cable other than the USB Type-C cable, connect the Micro USB connector to your device.

- The items supplied with the device and their images may vary by region.

Accessing more information

Visit www.samsung.com/ca to view device information, the user manual, and more.

- The user manual may not be available depending on the web browser or service provider.
- You may incur additional charges for accessing the Internet.

Device layout

To turn on the device, press and hold the Power key for a few seconds.

Installing a nano-SIM card and a microSD card

Insert the ejection pin into the hole on the tray to loosen the tray.

Gently press the card into the tray to secure it.

- Use only a nano-SIM card.
- Ensure that the ejection pin is perpendicular to the hole. Otherwise, the device may be damaged.
- If the card is not fixed firmly into the tray, the card may leave or fall out of the tray.

- Nano-SIM cards and microSD cards are sold separately.

Charging the battery

Before using the device for the first time, you must charge the battery.

- The charger should remain close to the electric socket and easily accessible while charging.

Using the Home button

- When you turn on the device, the Home button will appear at the bottom of the screen as a soft button.
- When the screen is off, hard press the Home button until the device vibrates to turn on the screen.

- To transfer data of the previous device to a new device: Visit www.samsung.com/smartsync for more information.
- If your device is frozen and unresponsive, press and hold the Power key and the Volume Down key simultaneously for more than 7 seconds to restart it.

Correct disposal

To view more information about device and battery disposal, swipe up for Apps and tap **Settings** → **About phone** → **Legal information** → **Safety information**.

This device contains a Lilon battery. For safe disposal options, contact your nearest service centre. For information on battery replacement, please contact your service provider. Do not disassemble, crush, or puncture the device. Do not dispose of it in a fire.

- Be sure to dispose of your device properly. In some areas, the disposal of batteries in household or business trash may be prohibited.
- For safety, do not handle the device if the Lilon battery is damaged or leaking.

Safety information

Read all safety information before using the device to ensure safe and proper use.

Warning

Follow the warning information provided below to prevent incidents such as fire or explosion

- Do not expose the device to physical impact or damage.
- Use manufacturer-approved chargers, accessories, and supplies.
- Prevent the multipurpose jack from contacting conductive elements, such as metal or liquids.
- If any part of the device is cracked or broken, stop using the device immediately and take it to a Samsung Service Centre.

Follow the warnings below to prevent injury to people or damage to the device

- The device can be used in locations with an ambient temperature of 0 °C to 35 °C. You can store the device at an ambient temperature of -20 °C to 50 °C. Using or storing the device outside of the recommended temperature ranges may damage the device or reduce the battery's lifespan.
- Do not allow children or animals to chew or suck the device.
- If the device has a camera flash or light, do not use it close to the eyes of people or animals.

- Do not use your device in a hot environment or near fire.
- Comply with all safety warnings and regulations regarding mobile device usage while operating a vehicle.
- To protect your eyes, do not stare at the iris recognition LED light when your eyes are less than 20 cm away from the device.

To prevent possible hearing damage when using a headset, do not listen to sound at high volume for long periods.

To view the full safety information including device and battery disposal instructions, launch the **Settings** app and tap **About phone** → **Legal information** → **Safety information**.

Maintaining water and dust resistance

The device may be damaged if water or dust enters the device. Follow these tips carefully to prevent damage to the device and to maintain the water- and dust-resistant performance of the device.

- Do not immerse the device in water deeper than 1.5 m or keep it submerged for more than 30 minutes.
- Do not expose the device to **water moving with force**.
- If the device is exposed to clean water, dry it thoroughly with a clean, soft cloth. If the device is exposed to other liquids, such as salt water, ionized water, or alcoholic beverage, rinse it with clean water and dry it thoroughly with a clean, soft cloth. If you do not follow these instructions, the device's performance and appearance may be affected.
- If the device has been immersed in water or the microphone or the speaker is wet, sound may not be heard clearly during a call. After wiping the device with a dry cloth, dry it thoroughly before using it.

Your device has been tested in a controlled environment and certified to be water- and dust-resistant in specific situations (meets requirements of classification IP68 as described by the international standard IEC 60529-Degrees of Protection provided by Enclosures [IP Code]; test conditions: 15-35 °C, 86-106 kPa, 1.5 metre, 30 minutes). Despite this classification, it is still possible for your device to be damaged in certain situations.

Acknowledging Special Precautions and Industry Canada Notice

Cautions

Any changes or modifications to your phone not expressly approved by Samsung could void your warranty for this equipment, and void your authority to operate this equipment. Only use approved batteries, antennas, and chargers. The use of any unauthorized accessories may be dangerous and void the phone warranty if said accessories cause damage or a defect to the phone.

Although your phone is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending, or sitting on it.

Information to User

This equipment has been tested and found to comply with the limits of a Class B digital device. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient/relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) certification information

Your device conforms to Industry Canada standards that limit human exposure to radio frequency (RF) energy emitted by radio and telecommunications equipment. These standards prevent the sale of mobile devices that exceed a maximum exposure level (known as the Specific Absorption Rate, or SAR) of 1.6 W/kg. SAR information on this and other model devices can be accessed online on IC's website through www.ic.gc.ca/eic/site/ceb-bhst.nsf/eng/h_tt00084.html.

In normal use, the actual SAR is likely to be much lower, as the device has been designed to emit only the RF energy necessary to transmit a signal to the nearest base station. By automatically emitting lower levels when possible, your device reduces your overall exposure to RF energy.

Industry Canada has granted an IC Certification Number for this model device based on the compliance of all reported SAR levels with the IC RF exposure guidelines. This device has an IC number: 649E-SMG950U [Model Number: SM-G950W] and the specific SAR levels for this device can be found at the following Industry Canada website: sms-sgs.ic.gc.ca/equipmentSearch/searchRadioEquipments. The SAR information for this device can also be found on Samsung's website: www.samsung.com/sar.

IC Notice

This device complies with Industry Canada licence exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.
